DETAILED ACTION

Allowable Subject Matter

1. The Examiner acknowledges Applicant's submission of the amendment filed on 01/18/2005.
2. The allowed claims are 50, 99-147, 150-154.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest the recitations of the specific features of the method and device, of claims 50 and 99, including especially the following:

The primary reason for the allowance of independent claim 50, is the inclusion of providing the at least one medicament in contact with the substrate or the treatment site, and while the device remains retained on the individual's finger, placing the contact surface of the substrate into contact with the individual's treatment site and causing electrical current to flow through the first electrode, the electrically transportable medicament or conductive carrier, the treatment site, the individual's body, the second electrode and the power source, to electrokinetically drive the medicament into the treatment site.

The primary reason for the allowance of independent claim 99, is the inclusion of the second electrode having a tactile surface and lying on a side of the applicator remote from the pad, and having an electrically conductive material overlying the tactile surface, wherein an electrical circuit is completed between the first electrode through the treatment site and the second electrode via the tactile surface, the electrically conductive material, and the individual's hand and body.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fadi H. Dahbour whose telephone number is 571-272-4792. The examiner can normally be reached on M-F, 9am-5:30pm est.
